If you think I am cutting the defense budget, read this:

President George W. Bush today sent to Congress his defense budget for fiscal 2008. The budget requests \$481.4 billion in discretionary authority for the Department of Defense base budget, an 11.3 percent increase over the projected enacted level for fiscal 2007, for real growth of 8.6 percent; and \$141.7 billion to continue the fight in the Global War on Terror (GWOT) in fiscal 2008.

Iraqi Security Forces	3,007 million in FY 2006
