

Socialism Is Here

The United States is currently facing some of the most dramatic and drastic issues and changes it has faced in a long time. As conservatives, we are stuck almost in a closet with no representation.

It is time for this to change.

The Declaration of Independence states "We the People". Currently, our government does not believe in We the People. It is all about how our government can control us, how it can regulate us, and basically tell us how to live our lives.

This Is Not The American Way.

Our government is out of its bounds, and still expanding. We must stop this.

Stop The Nonsense

Many people think that our Federal Government is supposed to provide for us and to help us with everything. That is not what our Federal Government is here for. These things, if they exist at all, are the responsibility of our State, County or City governments.

Our Government must listen to us. I don't mean just some classes; the rich, the poor, or any other group. They must listen to us all. This is never going to happen when we let a small amount of people control all of us.

I have a plan to fix this. I would like you, your friends, your family, your enemies and anyone else you know, to visit my website and learn about and interact with my plan.

We can fix this. We have the power. This nation is ours. It is not the politicians. It is no one else's. We The People control this nation, no matter what any one says. I urge everyone that really cares to take a stance, and to make our voices heard. Our politicians will not listen to us otherwise. We must stand together.

Stand up for true conservatism. Call out those who are corrupting and ruining America. Make your voice many, loud and if necessary, repetitive.

Get our media to cover the real issues. Contact them as often as you can, and tell them that they need to get their news priorities straight. They need to report the Truth!

WHAT OUR GOVERNMENT MUST DO:

- Balance the Budget
- Practice Government Spending Accountability
- Bring the Vote Back to Us The People
- Stop Federal Welfare, Bailouts and All Other Social Programs
- Give Our States Rights and Responsibilities Back to the States
- Stop Illegal Immigration, Supporting Illegal Immigrants and Secure Our Borders
- Stop Dictating Lower Standards to the States
- Stop Creating Class Warfare
- Stop Sending and Borrowing Billions of Dollars to Other Countries
- Stop Creating Inflation, Taxing Our Homes, and Creating Other Hidden Taxes

WHAT WE MUST DO:

- Stand for our principles, no matter who will get offended.
- Contact everyone you can. Share with them what a true Conservative means.
- Contact your local media.
- **Do this as often and as much as you can.**
